1st BMUC
BELGIAN MULTIDISCIPLINARY MEETING ON UROLOGICAL CANCERS

Crowne Plaza Brussels
Le Palace
Dear colleagues,

We are glad to welcome you to the first BMUC (Belgian Multidisciplinary Meeting on Urological Cancers). This initiative was made possible by the unique opportunity of cooperation between BSMO, BAU and BVRO/ABRO. It is a natural consequence of daily practice where medical oncologists, urologists and radiation oncologists are working together to offer best diagnostics and treatment options to our patients.

Considering new treatment options and regimens and taking into account this multidisciplinary level of clinical practice, these are exciting times for clinicians and researchers involved in uro-oncology today!

Some colleagues will present a case report followed by a lecture and/or panel discussion: topics on testicular, bladder and prostate cancer will be covered in the course of the meeting.

We are glad to have with us Martijn Kerst, treating testicular cancer in the Netherlands Cancer Institute in Amsterdam.

The national societies will talk about their projects/plans in uro-oncology shortly before break.

Of course, this is also an ideal opportunity to present to you a concise update on the highlights of ASCO-GU.

Looking forward to seeing you for an exciting meeting on March 29th,

S. Rottey

Scientific committee:
BSMO: J.P. Machiels, G. Pelgrims, S. Rottey
BAU: L. Hoekx, S. Joniau, T. Roumeguere
BVRO/ABRO: O. De Hertogh, G. De Meerleer, Y. Neybuch

PROGRAMME SATURDAY 29 MARCH, 2014

8.30 Welcome and registration
