

NATIONAL  
**JACIE**  
MEETING DAY  
FEBRUARY 21<sup>TH</sup> 2014

INVITATION

The Belgian Hematological Society (BHS) organises the third National JACIE Symposium with an unrestricted grant of MSD

During this meeting several presentations will be given about the current status of the **JACIE** process in Europe and Belgium as well as the successful implementation and maintenance of a **JACIE** based quality management plan in stem cell transplantation centers. In addition round table discussions will be organised to exchange personal experiences and to discuss about specific problems that can arise during the implementation of the **JACIE** standards. The target audience includes clinical program directors, nurses, physicians, laboratory and collection facility directors, laboratory technicians, quality managers or other staff of centers that are in preparation for application or that already obtained a **JACIE** accreditation.

Accreditation for this symposium is requested
