The annual congress of the European Hematology Association (EHA) is one of the major international meetings in the field of hematology. Educational sessions cover state-of-the art treatment procedures and scientific and poster sessions offer a forum for an enormous number of high quality studies. Information will be presented on promising experimental therapeutics. New strategies and old assumptions will be discussed. Unfortunately not all clinicians and researchers interested in hematology are able to attend the EHA and in the hematology sessions at ASCO. And even those attending cannot always join all sessions of their interest. For that reason the BHS has taken the initiative to organise the 2<sup>nd</sup> Post-EHA<sup>+</sup> Meeting to be held on Thursday, September 14, 2017. We look forward welcoming you to Hotel Crowne Plaza Brussels Airport, Brussels.
